ABOUT FULCRO

An exciting opportunity has arisen to join well established and rapidly growing business!

Fulcro is an innovative team of **Design Technologists, Engineers** and **Creative Thinkers** who thrive on **delivering solutions** that are **faster, better** and have **more value** for our clients.

Our core activities are:

- Project Management
- 3D/4D and 5D digital prototyping
- BIM Management
- 3D design detailing for construction, fabrication and assembly

Fulcro work on the **UK's and World's largest construction projects** including Stadia, Iconic residential developments, flagship commercial buildings and Infrastructure projects.

Our people are important to us. We empower them to perform, offer opportunities to grow and **reward** their contribution. We will develop your knowledge through practical applications and teach you about relevant technologies.

SCOPE OF THE ROLE

Within Coordinated Design Services [CDS] Division you will be implementing BIM technology. You will:

- Assist in ensuring the BEP is followed
- Audit of models and chairing
- Minuting co-ordination meeting

This position will give you the chance to work on some of the top construction projects and includes travelling to sites on multiple projects in the UK and Worldwide!

*Wimbledon Court One;
London*

Fulcro have a unique perspective of the Design and Construction industry, underpinned by digital technologies. We are an innovative and collaborative team that possess a unique set of skills honed through our 16+ years of experience, across all operational, organisational and delivery aspects of a project.

KEY FUNCTIONS

- Support the team in the delivering the project
- Contribute to Team Meetings
- Work with Project teams to ensure the successful delivery of the project
- Early design review and constructability analysis
- 3D Model Quantity Extraction / Verification
- 3D Model Authoring
- 2D Sheet Production
- Conduct clash detection tests using Navisworks Manage
- Assisting with Mentoring Less Experience Colleagues

PERSON'S SPECIFICATION:

The key is **attitude** and aptitude! You need to have

- 3 -5 Years' Experience with Autodesk Fabrication in Revit/AutoCad
- Experience with Navisworks
- Good interpersonal and communication skills
- Technical problem-solving abilities
- Passion and enjoy working within a fast-paced innovative environment

QUALIFICATIONS

Essential

- Interest in working with Construction Technology
- Knowledge of BIM processes, standards and protocols
- Knowledge in Autodesk Revit, Navisworks, AutoCAD & Fabrication
- Knowledge of construction processes and procedures
- Advanced PC skills, specifically Microsoft Windows Applications (Word, Excel, Outlook & PowerPoint)

Desired

- Site / Construction Experience
- ONC/HNC Qualification in Building Services/ Construction
- GCSE Grade A-C (4+) in Maths and English
- Experience with Primavera P6
- Completed coursework in Construction, Architecture or an equivalent combination of training and or work experience.
