ABOUT FULCRO

An exciting opportunity has arisen to join well established and rapidly growing business!

Fulcro is an innovative team of **Design Technologists, Engineers** and **Creative Thinkers** who thrive on **delivering solutions** that are **faster, better** and have **more value** for our clients.

Our core activities are:

- Project Management
- 3D/4D and 5D digital prototyping
- BIM Management
- 3D design detailing for construction, fabrication and assembly

Fulcro work on the **UK's and World's largest construction projects** including Stadia, Iconic residential developments, flagship commercial buildings and Infrastructure projects.

Our people are important to us. We empower them to perform, offer opportunities to grow and **reward** their contribution. We will develop your knowledge through practical applications and teach you about relevant technologies.

SCOPE OF THE ROLE

As a **Trainee Technologist**, you will be introduced to our in-house training programme, predominantly receiving training in using **CAD systems** and recognising **mechanical, electrical and pipework** systems.

You will have the opportunity to work alongside a variety of professionals on some prestigious projects.

This role enables a career pathway to **Technologist** working on significant infrastructure projects.

Fulcro have a unique perspective of the Design and Construction industry, underpinned by digital technologies. We are an innovative and collaborative team that possess a unique set of skills honed through our 16+ years of experience, across all operational, organisational and delivery aspects of a project.

KEY FUNCTIONS

- Learn Revit/AutoCad
- Learn Autodesk Fabrication in Revit/AutoCad
- Learn basic 3D Model Authorship
- Learn 2D Sheet Production
- Learn how to conduct clash detection tests using Navisworks Manage
- Support the team in the delivering the project
- Work with Project teams to ensure the successful delivery of the project
- Willing to Enrol at College to gain an ONC in Building Services/Construction

PERSON'S SPECIFICATION:

The key is **attitude** and aptitude! You need to have

- Good interpersonal and communication skills
- Have a desire/willingness to learn
- Passion and enjoy working within a fast-paced innovative environment

QUALIFICATIONS

Essential

- Interest in working with Construction Technology
- PC skills, specifically Microsoft Windows Applications (Word, Excel, Outlook & PowerPoint)

Desired

- GCSE Grade A-C (4+) in Maths and English
- Experience of AutoCAD
