

Job Vacancy - Apprentice BIM Technician

ROLE: Apprentice BIM Technician with Associates

SALARY: To be based on experience, skills and ability

LOCATION: Wixford (Stratford-upon Avon) or Central London (Waterloo)

SCOPE OF THE ROLE

This role is aimed towards individuals that wish to start the development of their career in Virtual Design in Construction [VDC] and Building Information Management [BIM], through their experiences with a business and training in an appropriately selected College Course. This position will give an individual the chance to work on some of the top construction projects, learn on the job, achieve a qualification, and develop their future.

It is the intention that all applicants will undergo an apprenticeship programme to including internal training, higher education with a focus on Mechanical Electrical and Plumbing [MEP] service coordination. The individual will also be exposed to other divisions of the business to produce an employee that is truly multi-disciplined.

KEY FUNCTIONS

This role will require the individual to Learn and Demonstrate the following:

- Key software used by the business Revit, Autodesk Fabrication, AutoCAD.
- How to conduct clash detection tests and model reviews using Navisworks, Solibri and Revizto.
- How to use and interact with EDMS systems.
- How to Implement BIM Technology to facilitate project needs
- The process of 2D sheet Production.
- The process of 3D model Authorship.
- The process of analyzing a design and how to report the findings correctly.
- Interact in Coordination meetings internally and externally.
- Attend client co-ordination and other review meetings.
- Attend a Higher Education course on a Day Release basis [*Specific course and duration dependent on location and availability*].

PERSONAL QUALITIES

The key is attitude and aptitude. We are looking for:

- Strong interpersonal & communication skills.
- Have the desire, drive and willingness to continuously develop and learn.
- Technical problem-solving abilities.
- You will need to be able to work as part of a team whilst being resourceful and not afraid to use their initiative.
- Want to work in the Construction Industry.
- Good attention to detail.
- Ability to prioritize.

QUALIFICATIONS & EXPERIENCE

We have essential requirements that the applicant needs to have and some desirable requirements:

Essential:

- Good base PC skills, specifically Microsoft Windows Applications (Word, Excel, Outlook, & PowerPoint).
- GCSE Grade A-C (4+) in Math's and English.

Desirable:

- Construction Industry Experience.
- Higher Qualifications relevant to the industry.
